

Allianz Technology Trust wins coveted AIC Shareholder Communication Award

The Association of Investment Companies (AIC) announced the industry's most exceptional communications at a ceremony held in London on 16 May 2018. These awards celebrate those AIC member investment trusts and their managers who are providing clear, meaningful information to shareholders in an imaginative way.

Allianz Technology Trust (ATT) won the highly coveted Best Report and Accounts in the Specialist category. The independent judging panel commented on the report's excellent use of pictures as well as its use of text and design in a creative way. The judges also described the 'Insights' section in the report, explaining the technology sectors it invests in, as "simply superb".

Robert Jeens, Chairman of Allianz Technology Trust, commented:

"The Board works hard with Allianz Global Investors to ensure that our annual report is effective, attractive and meaningful to all investors, whatever their profile. We are delighted that our report has been deemed to be one that sets an example for the industry."

A ranking, a rating or an award provides no indicator of future performance and is not constant over time.
